

7 TIPS FOR USING THE 2nd FLOOR STUDIO

2nd FLOOR STUDIO

1

Reserve the Studio and key from the Equipment Checkout form online.

2

Bring a USB Drive, preformatted for FAT32* and larger than 4GB.

* - see Tech Desk for more information.

3

Insert USB Drive into kiosk.
A/V components will turn on within 10-15 seconds.
Press the button with the **red dot** to begin recording.

4

Choose between the regular backdrop or turn on the light ring for a chroma key* effect.

*-chroma = green / blue screen.

5

If you are a shorter individual, position yourself closer to the camera, and if you are taller move further away.

6

Wear solid colored clothing and avoid wearing green or white if using the chroma key.

7

Wait for the tiny blinking green light below the “mark” button to stop flashing before you remove your USB drive.
